LANSDELL, Tracy

I made this area home 15 years ago, drawn by the natural beauty and kind, unique communities. I've always volunteered in different groups, like coordinating the Greenbushes Community Garden, as selfless service is an innate quality I embrace. I'm also a successful small business owner. I'm now running for council as I feel that we're entering a new phase in our Shire, where having Councillors that can offer fresh and progressive perspectives to council decisions, mixed with compassion and reflecting all the people we are serving is going to be paramount. I can offer this and together we can build a resilient, regenerative and vibrant future - that blends our commercial successes with prioritising our social responsibility, environmental sensitivity and accountability, just as equally
