### UNIVERSAL ACCESS STANDARDS

**Vertical bumps** in doorways must be less than 0.7cm high. If a bump has a bevelled edge on each side with a slope not steeper than 1:2, the bump may have a maximum height of 2cm.

**Doorways** must have a width of at least 81cm.

**Ramps** must have a maximum running slope of 1:12, (i.e. 8.3% or an inclination angle of 5°).
