I have been actively involved in Bridgetown since moving here 9 years ago. Early on, I created The Rabbit Hole art space in town providing a much-needed outlet and learning space for local creatives. This was my own business which after 5 years I handed over to the community to carry on as a not-for-profit artist collective.

I was elected to Council 4 years ago intending to improve communication between the Shire and the community. I have been successful in strengthening this link via my On the Bench sessions every week and facilitating numerous meetings between community members and Shire officers to assist with queries and concerns. I was elected as Shire President in May last year and have since helped to address some long-standing issues of community concern. There is more to do.

Our Shire is experiencing enormous change and it is vital we have a strong, compassionate Council to manage the change without destroying what is important to us all. I want to continue as part of that team.
