C.18/1019	CEO	51	Absolute Majority Required		
C.19/1019	CEO	53	Absolute Majority Required		
C.20/1019	CEO	55	Absolute Majority Required		
C.22/1019	CEO	61	Pulled for Discussion		
C.25/1019	Cr Quinby	72	The property in question has been in commercial use for approximately 80 years. The tenant is charged rates as a commercial property. The only confusion here has been caused by the peculiar decision to rezone the property as residential in 1983 as part of TPS3. In the circumstances it is unreasonable to charge the business operator to go through this process.	<ul style="list-style-type: none"> • Number the current recommendation 1. • Add recommendation 2 – That Council, noting the obvious anomaly in this case, direct the CEO to resolve the conflict between the ambiguous zoning of the property in question and practical reality. • Add recommendation 3 – That Council direct the CEO to refund all fees paid by the applicant over and above the standard fee appropriate for placing a sea container on a property zoned commercial 	
C.26/1019	Cr Quinby	80	The partnership that owns Lot 13 includes the original owner of the property and the oak trees were planted in 1995-97. As such the partnership includes knowledge of the state of the spring and dams and changes thereto from early in the life of the plantation. Whilst not a total solution the imposition of a wider buffer around the spring source will go some way to restoring the supply and quality of water available on	To the conditions add: 11. A 50M buffer clear of blue gums to be maintained around the spring arising on Lot 12.	

			Lot 13.		
C.26/1019	Cr Moore	80	Pulled for discussion and possible alternative motions	To be determined after discussion	
C.26/1019	Cr Wilson	80	Pulled for debate. Additional information has been received from the proponent to consider.		
C.27/1019	Cr Moore	93	Pulled for discussion and possible alternative motions	To be determined after discussion	

- *Please tick the box(es) on the far right hand side of the table above if you have discussed your Alternative Motion or Question(s) with the author of the Item(s) being Pulled*
