Item No.	Report	Pulled By	Page No	Reason	Alternative Motion (if required)	*
C.04/1021	Establishment of Committees	Cr Mahoney	6	I disagree with the previous decision to “cease provision of youth services” as stated in the Officers Comments section. Furthermore, I disagree with the outcomes identified that there is no worthwhile return and that there is an existing service provider within the community. I have personally been approached by groups in the Shire asking for Council to again have a Committee to oversee Administration work in the youth services area. The Blackwood Youth Action group have also written in their letter to the Shire President dated 17 June 2020 specifically that they do not “take responsibility for youth service provision and youth development” due to the fact that they are a charity that supports at-risk and marginalised young people across the entire Warren Blackwood region. I believe the provision of youth services and community development is a very important aspect that should involve Shire support and be overseen by Council with the view that the future of our Shire is embodied in its current youth and they deserve our support and the Shire will benefit in the short and long terms.	Officer Recommendation with the addition of Youth Advisory Committee to the list of Committees to be established by Council for the two year term expiring 21 October 2023.	
C.04/1021	Establishment of Committees	Cr Lansdell	6	There is a need to re-establish the Youth Services Advisory Committee. The intended role and functions of the Committee needs to be determined after consultation with Blackwood Youth Action and further discussion by councillors prior to an Instrument of Appointment for the Committee being considered by Council next month.	<p>a. Officer recommendation with the inclusion of a 9th dot point to read “Youth Services Advisory Committee”</p> <p>b. Add a 2nd recommendation to read: “That the CEO present a report to the November 2021 ordinary Council meeting providing a draft Instrument of Appointment for a new Youth Services Advisory Committee and at that time</p>	

					Council also determine elected member and community membership. To inform preparation of that report the CEO is to consult with Blackwood Youth Action on its recommendations on the functions of the Youth Services Advisory Committee and also present a report to the November 2021 Concept Forum to allow councillor input into the intended role and functions of the Committee."
