***Heritage Value** (please tick on or more of the following)

To be included in the Heritage Inventory a place must demonstrate one or more of the following values. Please tick the one(s) that you believe best represent(s) the cultural heritage values of this place.

If you would like to expand on any of these points or include other information/comments about the cultural heritage significance of the place, please include this as an attachment.

Aesthetic Value

This may include:

- *Creative or design excellence*
- *The contribution of a place to the quality of its setting*
- *Landmark quality*
- *A contribution to important vistas.*

A place will not necessarily need to conform to prevailing 'good taste', or be designed by architects, to display aesthetic qualities. For example, simple farm buildings that sit well within their cultural landscape due to the use of local materials, form, scale or massing, may also have aesthetic value.

Historic Value

A place or area included under this criterion should:

- *Be closely associated with events, developments or cultural phases that have played an important part in the locality's history.*
- *Have a special association with a person, group of people or organisation important in shaping the locality.*
- *Be an example of technical or creative achievement from a particular period.*

Research Value

A place of research value should provide, or demonstrate a likelihood of providing, important evidence about past activity OR demonstrate qualities of innovation/new achievement for its time. For example, the place may include important information about construction technology, land use, a way of life or industrial process.

Social Value

A place will be considered for inclusion under this criterion if it is one that the community, or a significant part of the community, has held in high regard for an extended period (for social, cultural, educational or spiritual reasons).

Places of social value tend to be public places, or places distinctive in the local landscape, and generally make a positive contribution to the local 'sense of place' and local identity.

They may be symbolic or landmark places, and may include places of worship, community halls, schools, cemeteries, public offices, or privately owned places such as hotels, cinemas, cafes or sporting venues.

Degree/Level of Significance *(please tick, if relevant)*

In addition to the above values, a place may also be important because it is a rare or representative example of its type.

Rarity

It demonstrates rare, uncommon or endangered aspects of the cultural heritage of the local district.

Representativeness

It is a particularly good (and relatively intact) example of a common type of building/structure, a particular period or way of life, the work of a particular builder or architect, an architectural style etc
