

Additional Information

A little more information about me!

RESIDENCY

I have been a proud resident of this beautiful shire for 4 years, living both in the scenic Highlands and vibrant Bridgetown township.

PROFESSIONAL BACKGROUND

My diverse career spans roles with the NSW Police Force, Australian Defence Force, local government in regulatory capacities, and medical/emergency services. These experiences taught me the importance of fair enforcement, community safety priorities, and working effectively within complex legislative environments.

My extensive local government experience in regulatory compliance and community engagement provides me with practical, hands-on knowledge of how council decisions directly impact residents, local businesses, and community wellbeing.

COMMUNITY LEADERSHIP

I established a successful medical charity in NSW that led to the creation of two vital refuges in the Parramatta area for homeless and at-risk adults and youth. We developed innovative social enterprise businesses using a structured tough love approach to help young people overcome adverse behaviours and build essential life skills.

For these meaningful contributions to vulnerable communities, I received prestigious Citizen of the Year recognition for creating a positive, lasting impact on young lives. Through this important work, I engaged extensively with all levels of government, from local councillors to State and Federal Members of Parliament, and even the Governor General. I had the honour of meeting two Prime Ministers on multiple occasions!

This experience taught me invaluable skills in community needs assessment, stakeholder engagement, and strategic resource management all directly applicable to effective local government service.

SUPPORTING OTHERS

Life is always busy, and right now I'm donating my time to support other small business owners, helping them streamline operations, stay current with AI developments, and achieve healthy work-life balance
